TESTIGRIP CASTRATION FOR CALVES

TestiGrip revolutionizes cattle management by simplifying castration procedures. This innovative tool is tailored for securing testes during elastrator castration. The TestiGrip is a game-changing device that streamlines cattle restraint during castration. This invention allows for single-handed testicle grip, freeing the other hand to operate the elastrator. When dealing with protective cows eager to reunite with their calves, speed and precision are paramount. TestiGrip simplifies calf castration with its user-friendly design. Its unique adaptability caters to both standing and recumbent calves. TestiGrip prioritizes comfort for both the operator and the animal, boasting an ergonomic handle and a pinch-free design.

Sku. 102203002

MINI TESTIGRIP CASTRATION FOR LAMB

TestiGrip Mini revolutionizes lamb and kid goats castration procedures. This innovative tool is tailored for securing testes during elastrator castration. With TestiGrip, lamb producers can be assured of proper castration without missing any testicles. Its user-friendly design caters to busy producers who lack the time to individually inspect each animal after castration. By ensuring thorough castration. Comfort for both the operator and the animal, boasting an ergonomic handle and a pinch-free design.

STAINLESS STEEL HOOKS

UKAL

These hooks make it easy to attach your meat and fish pieces for smoking. Made from stainless steel, these hooks are robust and hold your food securely. They are highly resistant to impact and corrosion. They are easy to attach to the support grid. These butcher's hooks can also be used simply to store food in fridges. They are compatible with most smokers on the market.

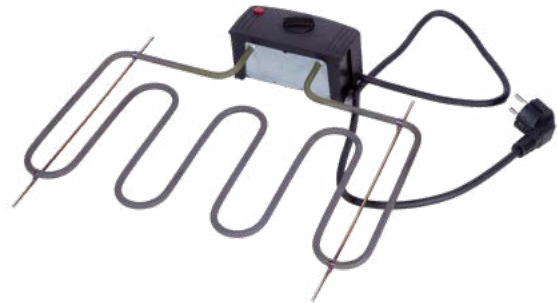

Sku. 150250106 10 stainless steel hooks - 6 cm  3 700393 985737

ELECTRICAL RESISTOR FOR SMOKER

The resistor for electric smokers with an output of 2000 W is designed for slow, flameless combustion of sawdust. It is placed inside the smoker and makes it possible to start the sawdust easily and quickly. Never leave the smoker unattended when it is in operation.

Sku. 150250105 2000 W  3 700393 987038 

BEECH SAWDUST FOR SMOKING

UKAL

Beech sawdust is widely recognised as the most widely used sawdust for smoking food, particularly for products such as salmon, duck breast and filet mignon. Its characteristics make it ideal for cold smoking meat and fish. Beech sawdust is mainly used for cold smoking meat and fish. Common products smoked with this sawdust include salmon, magret and filet mignon. The grain size of beech sawdust varies between 0.5 mm and 8 mm. This ensures optimum combustion and the right amount of smoke for slow, even smoking, guaranteeing authentic flavour and a delicate aroma for your food.

SPECIAL EDITION OPAL CLIPPER WITH 2 BATTERIES

A light and airy look in pale colours transforms the new Opal Special Edition into a fascinating and elegant eye-catcher. The new gem remains as usual "Brilliant in sound and performance".

The Opal is extremely quiet. It is also impressively powerful and equipped with **two speed levels**. With 3100 double strokes per minute in fast mode (and 2600 in slow mode), this clipper works smoothly and quickly even through dirty and thick fur and hair. The latest lithium-ion battery technology ensures cordless clipping up to **240 minutes**. It takes just one hour for a full battery recharge. Thanks to the built-in battery level indicator, it is always possible to check the remaining battery time.

Opal has a cutting-edge ergonomic design and fits perfectly in the hand. Moreover, this clipper is particularly small and lightweight. Professionals can thus work effortlessly - whether for grooming, veterinary applications or dog, horse and cow styling.

SUPERCAT PRO RAT TRAP

A smart trigger mechanism combined with a powerful hammer-blow killing system are the main features of the SUPERCAT PRO rat trap. This system eliminates rats quickly, reliably and in a species-relevant way. Rodents are attracted by a natural bait that contains neither poison nor chemicals.

This rat trap already meets forthcoming European standards and stands out as a pioneering product in humane pest control. The dead rats can be disposed of easily without having to touch them. To do this, simply hold the trap and press on the back of the top flap. Natural bait included. **Made in Europe.**

Sku. 129819024 Floor display x 25  7 640162 957571

CONNECT SUPERCAT CAPTURE SENSOR

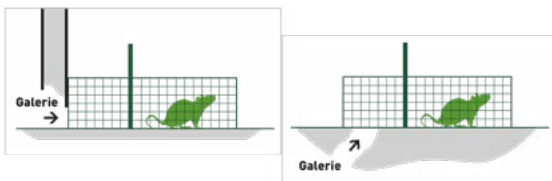

The Connect SuperCat capture detector from SWISSINNO notifies you in real time when the SWISSINNO mouse and rat traps are activated. Using its Connect SuperCat module, you receive notification via smartphone or tablet when the trap detects an animal. This connected system is particularly useful for hard-to-reach areas such as attics, cellars, partitions, outbuildings, etc.

This capture detector is compatible with all Swissinno mouse and rat traps. The Connect SuperCat app is available on the IOS App Store or Google Play (compatible from Android 11). 100% free app.

Sku.129815100 Bluetooth operation  7 640104 972723 

TWO POSSIBLE USES FOR THE RAT TRAP

RAT CAGE WITH 1 DOOR AND 1 ENTRY

Ideal for live capture of small animals such as rats, weasels and other small mustelids.

When the animal enters the cage and moves towards the bait at the bottom of the box, it steps on the pendulum which triggers the mechanism that closes the sliding door. The pest is trapped like a rat.

This trap features :

- an entrance on the underside of the cage to position it above a gallery
- a hinged door with 270° opening
- a sliding door
- a carrying handle, ideal for easy, safe handling of the cage.

Highly efficient and harmless, this cage can be placed anywhere (woodpile, barn, henhouse).

Sku. 129701601919 60 x 19 x 19 cm  3 700393 987420

TRAP FOR RACCOON

First-class raccoon trap without live bait, ideal for catching pests such as raccoons, weasels and martens. Its unique bait rack makes the bait visible, making the trap more effective. As the animal enters the fawn box, it passes over the paddle in the centre. By tilting it, the paddle closes the invisible door to capture the pest without harming it. It has an ergonomic handle for easy transport.

This trap features :

- An invisible door to increase the chances of capture.
- A carry handle, ideal for safe, easy handling.
- Effective and harmless, this trap can be placed anywhere (woodpile, barn, henhouse).
