BOROTTO designs and produces technologically advanced, high performance incubators, operating in compliance with advanced quality standards UNI EN ISO 9001 certified. By taking completely original ideas and developing them into revolutionary technical applications, three of which have been patented, Borotto has made its mark in the field of artificial incubation.

Incubators

LUMIA 8 INCUBATOR AUTOMATIC DIGITAL

- In Heat-Resistant ABS with Biomaster.
- Lumia 8: A small, technologically advanced, high performance machine. Its elegant design with "smart" technology makes this machine smart and easy to use and one of the best in its class.
- Lumia 8 stems from a desire to make the miracle of life available to all. It includes the highest professional incubation technology aimed at those with a limited number of eggs. The same technology that Borotto uses in larger models that can reach a higher level of accuracy and reliability.
- Lumia 8 is designed and built to better meet farmyard poultry and valuable species breeding requirements. Thanks to the use of innovative materials and a functional and ergonomic design, Lumia 8 is an indispensable instrument that is easy to use, both for the professional breeder and for all new breeding enthusiasts who want to try breeding farmyard animals for the first time, with expectations of a good result.

EGG SPOTTERS ADVICES

Apart from the presence of cracks and the stage of development of the embryo, you can also inspect the proportion of air inside the egg. Indeed, this percentage allows you to determine and adjust the level of humidity of your incubator, which is essential to the success of a good breeding. The diagram on the left shows the correspondence between the proportion of air and the number of days of incubation. Adjust your humidity as a function of the air proportion observed.

GREEN LINE FEEDER WITH HOPPER ANTI-PESTS

Succumb to this ultra-convenient feeder with its reserve of 12 or 20 kg. It makes life easier while taking care of your hens! Our UKAL experts have selected this feeding trough for its 4 advantages:

- Practical: The filling of the feeder is done on top with a hinged lid, moreover the pedal in plastic grill facilitates cleaning and avoids the accumulation of droppings.
 - Protected: The feeder is opened by pressing the pedal, triggered by the weight of the animal. Pests (rats, mice, sparrows, etc.) cannot open it because they are too light.
 - Resilient: Produced in galvanised sheet metal of quality, this feeder can remain outdoors thanks to its anti-rain system that prevents water from seeping inside.
 - Rational: An anti-waste grill prevents a significant loss of food.
- By adjusting the sensitivity of the pedal, this feeder is suitable for all species of ducks, hens, pheasants...

POULTRY SACRIFICE PLIERS

The subject must be suspended by the legs at a good height. Take the head in the left hand, press firmly with your thumb at the base of the Sku.ll. The beak of the poultry is then wide open. Insert the blade of the flat clamp so that it is placed in the bottom of the throat. Make a quarter turn with the clamp to bring it vertically so that the recessed part carried by the other branch of the clamp is placed on the Sku.ll, just behind the ridge, the tip of the blade must be at the bottom of the slightly inclined throat. When the clamp is in place, close it vigorously. The bleeding must be abundant, the muscles relax which allows a fast and efficient plucking.

Mane, coat and tail care

HAIR TONIC

Acts on dandruff, itching and friction. This highly effective tonic lotion rids the tail of dandruff, reduces itching and promotes the growth of long, healthy, beautiful hair, thanks to the caffeine, which stimulates hair growth from the root. The burdock root oil stops the spread of bacteria that cause eczema and dry patches. The tonic can also be used preventively to keep the scalp healthy.

SPRAY FOR A SHINY COAT, TAIL AND MANE

A revolutionary combined product to take care of your horses. It produces a coat which is as soft as silk and gives a long-lasting shine to the coat, tail and mane. The fine, glossy effect lasts for at least 12 days, and tail and mane remain tangle-free for the same length of time. EQUISTAR is absolutely non-toxic, even for very sensitive horses. For the time during which it is effective, it is dust- and dirt-repellent and water-repellent, and prevents the formation of new clusters of flies' eggs. EQUISTAR makes it easy to brush off spots of urine, dirt or dung, with just a few brush strokes.

HIMALAYAN SALT BLOCK

A totally natural salt lick, extracted from Himalayan rocks. Very pure and with a specific and highly palatable taste, the Himalayan salt block is rich in minerals and trace elements, and brings your horse vitality and well-being. This block is very solid as it is made from a single piece of rock. It does not break or dissolve when in contact with moisture like compressed salt blocks do, so it can be used in pastures. The salt block is pierced and can be placed in a manger, on a salt block holder or fixed anywhere with the supplied rope. Composition: sodium chloride 98,62 %, magnesium 0,40 %, calcium 0,11 %, sulphates 0,10 %, iron 0,001 %, moisture content 0,03 %, non-soluble residue 0,73%.

BRUSH FIRM SILICONE

No matter if it's a dog or a cat. With long or short hair, the pet+me® brush will pamper and comfort your furry friend in several ways. This cleaning and massage brush will deliver a balanced combination of efficiency and comfort. These brushes are soft and gentle even on the most sensitive skin and are most effective in removing loose hair, sebum, and dandruff. The pet+me® brush is made of 100% pure silicone, **safe for both humans and animals**. For a thorough cleaning, they can be washed in the washing machine. The pet+me® brush is the perfect lint brush! It acts like a magnet with a static cling effect. It may be used dry or wet. Using the fine side with pressure applied, even the finest of hair, dust, and allergens can be wiped away. Use it on upholstery, carpets, clothing, and car seats. Routine brushing of the animal, about twice a week, can help in reducing otherwise airborne dust and allergens.
