drinking trough green feet x 4

**GREEN LINE FEEDER WITH HOPPER ANTI-PESTS**

Succumb to this ultra-convenient feeder with its reserve of 12 or 20 kg. It makes life easier while taking care of your hens! Our UKAL experts have selected this feeding trough for its 4 advantages:

- Practical: The filling of the feeder is done on top with a hinged lid, moreover the pedal in plastic grill facilitates cleaning and avoids the accumulation of droppings.
- Protected: The feeder is opened by pressing the pedal, triggered by the weight of the animal. Pests (rats, mice, sparrows, etc.) cannot open it because they are too light.
- Resilient: Produced in galvanised sheet metal of quality, this feeder can remain outdoors thanks to its anti-rain system that prevents water from seeping inside.
- Rational: An anti-waste grill prevents a significant loss of food. By adjusting the sensitivity of the pedal, this feeder is suitable for all species of ducks, hens, pheasants...
